The future is coming

It is easy for unsuitable fish to be thrown to destruction, we can be thankful for the opportunity to be numbered among the good fish that will be kept.

How difficult it is to please people! Some of them are like children who refuse to dance when other children play the flute or grieve when their friends cry.

****No one should be a slave to two masters**** because either they will hate one and love the other, or they will cling to one and shun the other.

It's just ME, have you forgotten?.
